**Summary of reasons
for classification:**

The DVD *Lower City* is classified as:

Objectionable except if the availability of the publication is restricted to persons who have attained the age of 18 years.

The DVD contains a feature that is identical to a DVD of the same name previously examined and classified by the Classification Office. The film was classified as "Objectionable except if the availability of the publication is restricted to persons who have attained the age of 18 years", with the descriptive note "Contains violence, offensive language and sex scenes" (OFLC No.602522). This decision was registered on 31 March 2006.

As well as the feature, the DVD includes standard DVD components such as a chapter selection facility and extra material. The main additional material takes the form of a theatrical trailer and background information on the making of the feature. The additional components are of a similar nature to the feature and therefore do not require any change to the original classification.
